Sharing science,
shaping tomorrow

ENGLISH-TAUGHT MASTER'S PROGRAMMES

"What I loved about my studies here, was the specific attention to the international perspective."

Natasha Ghosh,
MA Communication, Management & Policy

MASTER YOUR FUTURE

uu.nl/internationalmasters

THE CITY OF UTRECHT

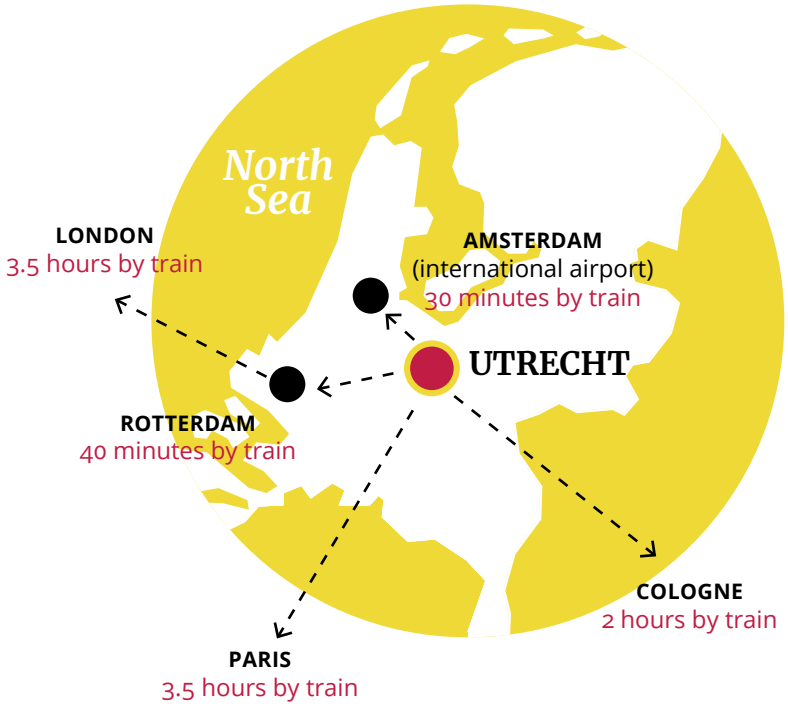
'Gezellig', a word deemed impossible to translate, but at its most accurate resembles "cosiness", "a pleasant atmosphere", or "general togetherness". Utrecht is a said to be an environment which embodies this word: a quintessential Dutch city which is both rich in history and at the same time embracing innovation/change. Home to one of the country's largest university, Utrecht is the proud owner of a fresh and diverse student population which, is not only reflected through the multitude of cultural events taking place at any given time, but also the cities' specialw focus on creating a hub of biodiversity.

UTRECHT HAS A SMALL-TOWN, "GEZELLIG" FEEL

The international nature of UU palpably extends to the spirit of the city too, with around 60,000 students living in Utrecht, a young, international and creative vibe masks the city, making it home to a plethora of innovative technology and biodiversity start-ups/organisations, transforming the city into a playground for unique infrastructure and social initiatives.

Despite these accolades, Utrecht has a small-town, "gezellig" feel. Paved with cobbled streets and scenic canals, there are activities on offer for all climates, such as grabbing a coffee before climbing the steps vast gothic Domtoren church, or canoeing down the Oude Gracht (Old Canal) district and stopping for a drink along the many wharf cellar bars. Amongst other languages, English is widely spoken here, marking it as inclusive as its population. Utrecht provides a space for bright minds to flourish and achieve a better future

The Domtoren (112m) is the country's tallest church tower.



Utrecht has the world's largest bicycle parking (12,500 spaces)

Utrecht was voted Most Beautiful Canal City in Europe by GoEuro.

Semester start:
5 September 2022

*This is a multilingual programme.
**Not state-funded. Also available in online variant.

MSc Master of Science
MA Master of Arts
LLM Master of Laws

STUDENTS SAY...

MOHAMMAD RIZKY NANDA HADJU

Indonesia | *MSc Marine Sciences*

"I completed my bachelor's degree in Marine Science in Indonesia. As Utrecht University is a leading expert in physical oceanography, obtaining a master's degree here is a way for me to realize my future goal. Advanced theories, technologies and information that the university provides help me in fulfilling my aspiration to become an accomplished professional in my field. The university has many different student organizations and extracurricular activities, including the Parnassos cultural center. Since I am really into music, I can explore my talent here. Exploring the city by bike is one of my favorite things, this is such a stunning environment to live in!"

LAUNCH YOUR CAREER

You'll benefit from UU's international reputation and courses designed with your future career in mind – plus, our university-wide Career Services team will be here with expert advice to help you take your next step. After graduation, you'll join an active network of 160,000 alumni living and working all over the world.

TIPS AND TRICKS FROM YOUNJUNG CHOI

1 Buy your bike as soon as possible and explore the city and go on each alley. You will discover cosy coffee places, nice wall paintings, cute small house-gardens as well as obtaining smart ways to save your travel time and cost. You may see sometimes you are faster than a car on the bike.

2 Try to cook international cuisines with your friends and simple recipes when the days get shorter and the raining season starts from October till next mid-spring. You can easily get any ingredient for your dish in supermarkets here and there. It would be very interesting to get to know the local spices and herbs, table manners and cultures around the world within the Netherlands.

WELCOME TO UTRECHT UNIVERSITY

Founded in 1636, Utrecht University (UU) is a leading international research university regularly ranked in the top 15 in continental Europe and the top 100 worldwide.

"I am delighted you are considering Utrecht University for postgraduate study. Consistently ranked amongst the best universities in the world, we have a reputation for cutting-edge research and a pioneering role in innovative, student-centered teaching. Our multidisciplinary approach to education is pivotal for comprehending (and hopefully solving) the multi-layered problems we face in today's world.

Through research and by sharing scientific knowledge, the university would like to contribute to the development to a more sustainable society.

A diverse and inclusive community of students and teachers contributes to an inspiring and challenging learning environment. Alongside our academic staff and bright graduates, we hope you will grow, develop and be inspired".

Prof. dr. Henk Kummeling
Rector Magnificus

A WORLD-CLASS EDUCATION

At Utrecht University, you'll help shape an existing tight-knit and diverse community of ambitious students, each working towards making a positive impact on the world. Through small-group dialogues, internship possibilities, and industry focused research projects, students of UU have the flexibility to prepare for addressing today's most contemporary issues, as well as preparing for the needs of the international labour market.

The international nature of UU doesn't only extend to the students, but also to the lecturers, each leaders in their respective fields, who will enable you to apply your own research interests to your students, fostered by the multidisciplinary learning environments.

Utrecht Universities' mission is to work towards contributing to a better world. We foster innovation, new insights, and societal impact, which is reflected in our university community, with each member having one thing in common – having set their hearts on creating a better world.
